

Internal Document Index

Single source of truth for all founding team documents. Keep this page bookmarked.

Owner	Status	Classification
iAM - Company	Live — updated each sprint	Internal / Confidential

Document	What it covers
Vision & Strategy	
iAM Manifesto	Why we're building iAM. Core philosophy, the ranking principle, and what we will never compromise on. Read this before anything else.
iAM MVP Overview	Scope of the first shippable product — 7 services, Stage, Checkout, Gifts. What's in, what's explicitly out.
Engineering	
Work Breakdown (WBS)	4-week sprint plan. File ownership map, shared type contracts, Gantt, detailed weekly tasks for Maaz and Nekha.
API List	All internal and third-party API endpoints. Duffel, Viator, OpenTable, Google Maps, Stripe. Auth, rate limits, error codes.
Design	
Design System - tbd (by Ashish)	Tokens, colour palette (light + dark), typography scale, component library. Owned by Ashish + Samantha.
Company & Operations	
Cap Table	Founder equity, option pool, pre-seed terms. Restricted — Maaz & Gilson only.
Pre-Seed Tracker	Investor pipeline, round status, runway model at current burn. Restricted — Maaz & Gilson only.

Keeping this page current

If you create a new document that the whole team needs, add it here. Update the link the same day. Dead links get removed at the start of each sprint. This index is the only navigation — there is no other master list.
